

# AG900 CRUSHER

## HERBST AG900 CRUSHER

*Towable. Powerful. Built for on-site crushing.*

- 900 x 450mm jaw crusher
- Direct feed hopper
- PTO-driven hydraulic system
- 40 – 125 mm adjustable crush size
- Output: 40 – 80 TPH
- Adjustable jaw setting
- Unladen weight: 6,500 kg

### AG900 Applications:

Recycling, Construction, Demolition, Landscaping, Agricultural yard crushing

### Materials Processed:

Stone, Concrete, Hardcore, Brick, Demolition Waste

## AG900 Overview

The AG900 is a high-performance 900 x 450 jaw crusher built for simple, efficient on-site crushing.

Powered directly by tractor PTO, the tractor also operates all hydraulic functions — creating a fully integrated crushing solution.

Material feeds straight into the jaw chamber via a large direct-feed hopper. Crush size is easily adjusted, with processed material discharged onto a rear conveyor for clean stockpiling.

Suitable for demolition, recycling and quarry work, delivering strong output across small and large-scale projects.

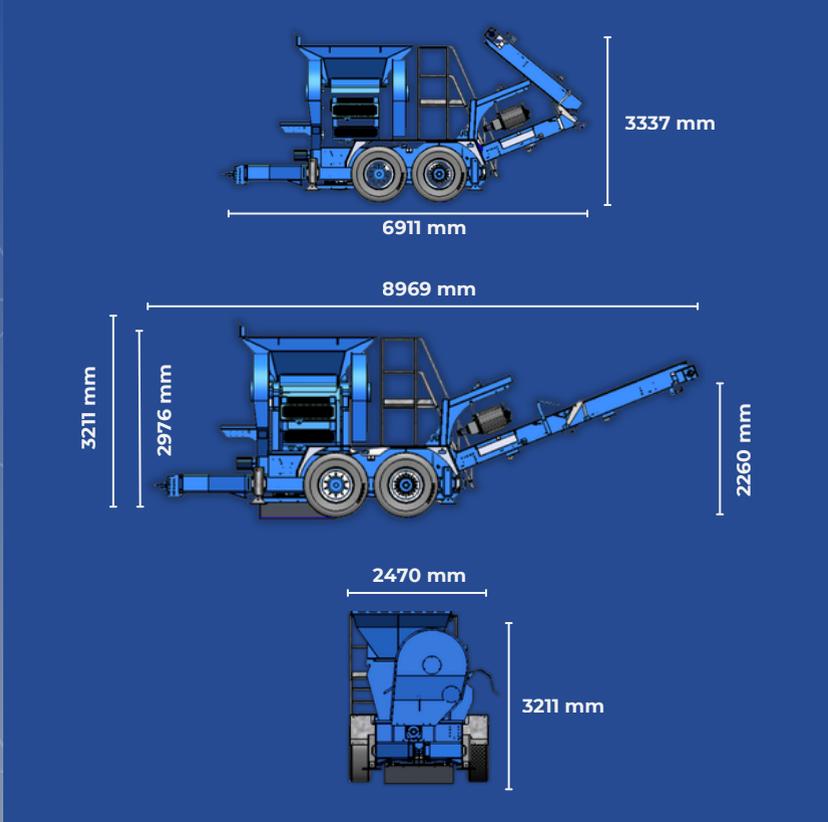

-  **Versatility.** Handles a wide range of materials across multiple applications.
-  **Innovation.** Modern design with efficient power delivery and quick setup.
-  **Performance.** Reliable output with low running costs and easy service access.

# AG900 Technical Specifications

## Drawings & Key Dimensions

## Transport & Working Dimensions

Transport Length / Width / Height (mm)	6,911 / 2,500 / 3,460 (22' 7" / 8' 2" / 11' 4")
Working Length (including conveyor) (mm)	8,900 (29' 2" + tractor unit)
Jaw Size (mm)	900 x 450 (36" x 18")
Crush Size (mm)	40 - 125 (1½" - 5")
Hopper Width / Length (mm)	2185 / 1780 (7' 2" / 5' 7")
Feed Height from Ground Level (mm)	3008 (9' 10")
Power Source	Tractor PTO - 120 HP Minimum
Unladen Weight	6,500 kg

**Materials Processed:**

- Stone
- Concrete
- Hardcore
- Brick
- Demolition Waste
- Reclaimed Asphalt

**AG900 Applications:**

- Recycling
- Demolition
- Construction
- Quarry Work
- Groundworks
- Site Clearance
- Agricultural Crushing
- Landscaping
