TS28 Overview

The TS28 is a compact and versatile screening solution designed for efficient on-site material processing. Towable behind a tractor or crusher, the machine is quick to deploy and ideal for recycling, construction, landscaping and aggregate applications.

Its high performance single deck screen box, combined with folding discharge conveyors and a compact transport footprint, allows the TS28 to deliver reliable screening performance while remaining easy to transport between sites.

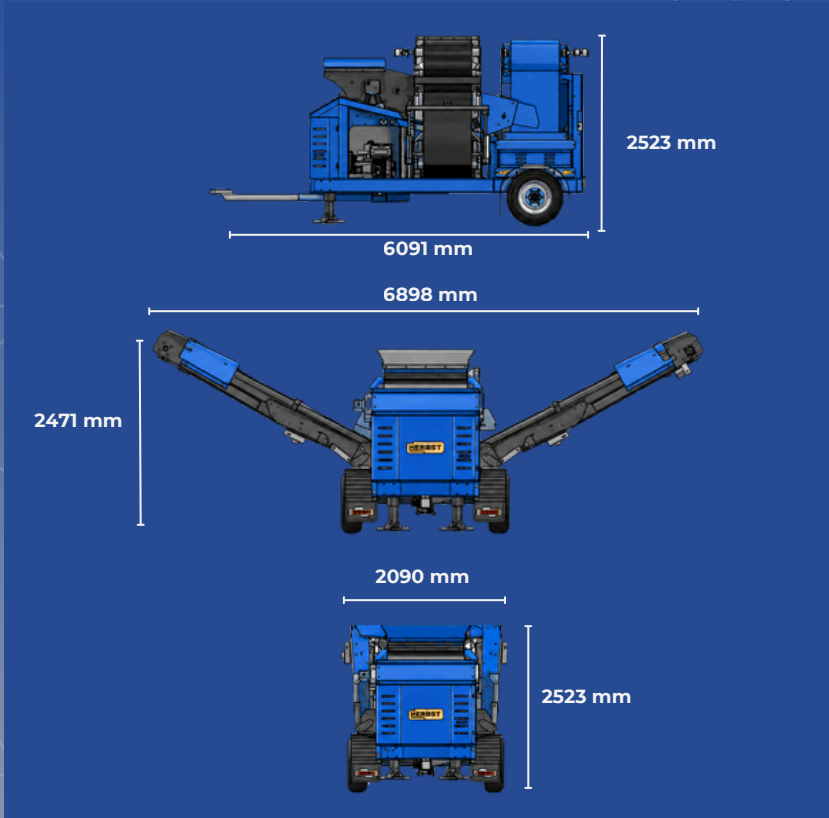

Powered by a Stage 5 diesel hydraulic system, the TS28 offers straightforward operation, low running costs and simple maintenance access.

-  **Versatility.** Handles a wide range of screening applications.
-  **Innovation.** Compact modern design with efficient setup.
-  **Performance.** Reliable and productive screening output with low running costs.
