

DIMENSIONS

FEATURES & BENEFITS

- Single Deck Screen Box (1m x 2.2m)
- Folding Discharge Conveyors for both Fines & Oversize Material
- An efficient, diesel powered Hydraulic system throughout.
- Towed by Agricultural Tractor / Or towable behind Crusher
- Hydraulic powered Telescopic Drawbar
- Single Axle with Hydraulic Braking
- LED Road Lighting
- To be loaded by excavator, or direct from a crusher
- Compact Design / Easily Transported / Simple Setup / Versatile

HERBST TS28 SCREENER

Transport Length / Width / Height (mm)	5201 (17' 1") / 2090 (6' 10") / 2471 (8' 1")
Working Length / Width / Height (mm)	5201 (17' 1") / 6854 (22' 6") / 2300 (7' 7")
Deck Size (mm)	2200 x 990 (7'2" x 3'3")
Screening Media Size (mm)	Multiple options available to suit application
Loading Height (mm)	2100 (6'10")
Stockpile Heights (mm)	2120 (6'11")
Powerpack	Stage 5 / Diesel
Unladen Weight	3,750Kg

TS28

Product Leaflet

Compac
TS28
Screenener

A Single Deck Vibrating Screener for processing material directly after the crusher. Initially this was designed to complement the crusher and be towed directly behind it. Once on site the screener would be positioned directly under the crusher's discharge conveyor and provide two products (Fines & Oversize) putting more value into the crushed material. Where different size of screening media can be fitted, the TS28 will produce the desired product for the customer. With the impressive performance of this machine, even with its' compact design, the TS28 will also be offered as a stand-alone model for topsoil & aggregate. This may be a completely static plant for a recycling unit, or the towable option, where the machine is easily transported to different sites. The small compact powerpack, means the machine is efficient to run and is easily accessed for service & maintenance.
